Active churches in the city of Nottingham, UK

Written by Peter Bates, peter.bates96@gmail.com

Introduction

This is a list of 188 Christian¹ churches that were open and holding their main meeting within the boundaries of the Nottingham unitary authority in summer 2023. A church was deemed to be open for public worship if they meet in person, have online activity dated in the last three months or future events advertised, or have confirmed via txt, email or phone that they are still active and welcome newcomers. Data protection and copyright² concerns have been addressed by confining this list to material that is already in the public domain³. A reflection on the search process is available⁴, along with guidance on submitting material to community directories⁵.

There are bound to be some churches that have been missed! However, the purpose was to generate a snapshot at a point in time, rather than take on the ongoing task of maintaining a directory, since that role can be carried out more effectively by an organisation like ASKLiON. Rather, the purpose was to obtain evidence to inform the other papers in this suite of resources. Responses to this work are welcome and should be sent to <u>peter.bates96@gmail.com</u>.
