Equality, Diversity and Inclusion Policy

We challenge the discrimination within society that contributes to exclusion and marginalisation of many individuals and groups within society and are equally committed to promoting justice within the company itself.

We are an equal opportunities employer and we welcome applications regardless of any characteristic protected by the Equality Act 2010, or any other matter which causes a person to be treated unfairly.

We are mindful at all times of our duty to uphold the law, including human rights and equality of opportunity. All the activities of the company are intended to actively promote anti-discriminatory practices within the company and in the conduct of the organisations we work with.

At all levels, we seek to eliminate all forms of discrimination and promote equality as we fulfil our duties as an employer and a company.
