Introduction

There are three universities in Nottingham UK – the University of Nottingham (UoN), Nottingham Trent University (NTU) and University of Law (UoL). Together they serve over 60,000 students, all of whom need somewhere to live during termtime. Many students make their own arrangements to rent ordinary accommodation, but there are also several providers of apartment blocks which are dedicated for student use. Some are owned and managed by UoN or NTU¹ and the tenants are all their own students, while other Halls are offered by private providers and accommodate students from any university. The present search has identified 115 of the larger halls² as listed below.

Please send updates and corrections to peter.bates96@gmail.com.

A note on style

As all the addresses fall within the city of Nottingham, postal addresses have been shorted by removing the word Nottingham that normally appears before the postcode. As this listing is part of a larger project on community building, information is included about communal facilities and events.

¹ UoL has an accommodation team at Accommodation@law.ac.uk but they do not manage any Halls. Enrolled students are issued with a password and may access their dedicated accommodation [website](#). Their [Facebook page](#) enables students to negotiate accommodation deals with one another.

² For example, 6-12 Gregory Boulevard, operated by [The Student Lodge](#) has only 25 studios and was not included as it is more like a couple of large houses rather than a hall of residence. Similarly, 162 Mansfield Road NG1 3HW operated by [Megaaclose](#) is only 7 bedrooms. The threshold is arbitrary.

Data quality

It is sometimes hard to distinguish between the owner, management company and online marketplace that presents a particular hall. Similarly, distinguishing student accommodation from serviced apartments and hotels is not always easy³. Some information may be outdated. For example, there is no webpage at UoN for Hugh Stewart Hall, even though it is listed as part of the responsibility of a Hall Manager. Some information is incomplete, such as the reference to Globe Café [here](#) that provides no explanation of what it is. Some information is contradictory, such as Miura, which appears to be managed by both Prestige and Homes for Students.
